EVERYTHING FIRMLY IN HAND

THE CIMCO RANGE OF PLIERS FOR ELECTRONICS ENGINEERS

Safety, precision and reliability: that's what you can expect from all of our pliers.

As an electronics engineer, you are highly specialised – and so are our pliers. Here at CIMCO we have decades of experience in the field of professional electronics tools – and your safety has always been our top priority. Every single one of our pliers has been tested in a special procedure at 10,000 V AC, approved for 1,000 V AC and verified according to DIN standards. The handle sleeves, which are either shrunk on or dipped, also allow for ergonomic and comfortable working. You can use our grip pliers to work precisely, while our diagonal pliers produce clean cutting results.

SAFE, ERGONOMIC AND DURABLE

Whether the handle sleeves have been shrunk on or dipped, all CIMCO pliers have been individually tested at 10,000 V AC and approved for 1,000 V AC. So you are well protected when performing all your electrical installation work!

High-quality chrome coating provides resistance against rust and a long service life.

1000 V Individually tested at 10,000 V AC and approved for IEC 609000 1,000 V AC.

Handle sleeves with two-coloured plastic dip insulation (if the red layer is damaged and the orange layer is visible, the insulation is no longer providing a protective function).

Two-component handle sleeves with soft and hard zones for maximum comfort and ergonomics.

All pliers bearing this quality mark are VDE approved.

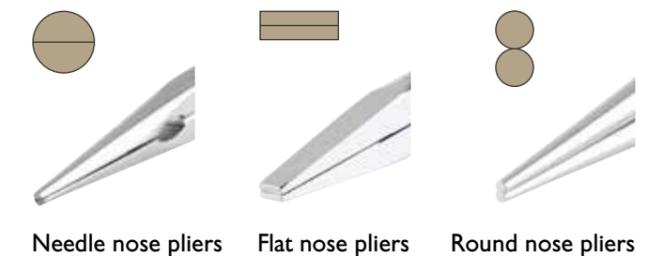

CUTTING OR GRIPPING

The jaws of your pliers will be designed to cut (e.g. diagonal pliers) or grip (e.g. needle nose pliers), depending on your requirements. Multifunctional pliers feature a combination of cutting and gripping jaw geometries.

CUTTING PLIERS:
CUTTING PLIERS MAKE IT EASY TO SEVER VERY FINE WIRES AND STRANDED WIRES. THEY PRODUCE CLEAN AND PRECISE CUTTING RESULTS, THANKS TO THEIR PERFECTLY SHAPED CUTTING TIPS.

GRIPPING PLIERS:
GRIPPING PLIERS ARE AVAILABLE IN THREE GEOMETRIES: FLAT, ROUND OR NEEDLE NOSE. THE GRIPPING SURFACES ON ALL THESE TYPES MAY BE SMOOTH OR SERRATED.

Needle nose pliers Flat nose pliers Round nose pliers

1,000 V DIAGONAL PLIERS

Reliable cutting tools for a range of electrical installation applications

- Highly precise even for very finely stranded wires
- Clean cutting result at the cutting tips
- High-quality materials for a long service life
- DIN ISO 5749

INSULATED HANDLE SLEEVES

CIMCO item no.	Length mm
10 0572	145
10 0574	160
10 0577	180

DIP-INSULATED HANDLES

CIMCO item no.	Length mm
10 8785	145
10 8786	160
10 8787	180

INSULATED HANDLE SLEEVES

Diagonal pliers with double base coating and black surface finish. Insulation protection up to 1,000 V AC.

CIMCO item no.	Length mm
10 0000	160

1,000 V HEAVY DUTY DIAGONAL PLIERS

Powerful cutting tools for severing high-strength wires

- Item being cut is close to the pivot point, giving a shorter lever arm and higher cutting force
- Accurate cutting with less effort
- High-precision handling of spring steel wires too
- DIN ISO 5749

INSULATED HANDLE SLEEVES

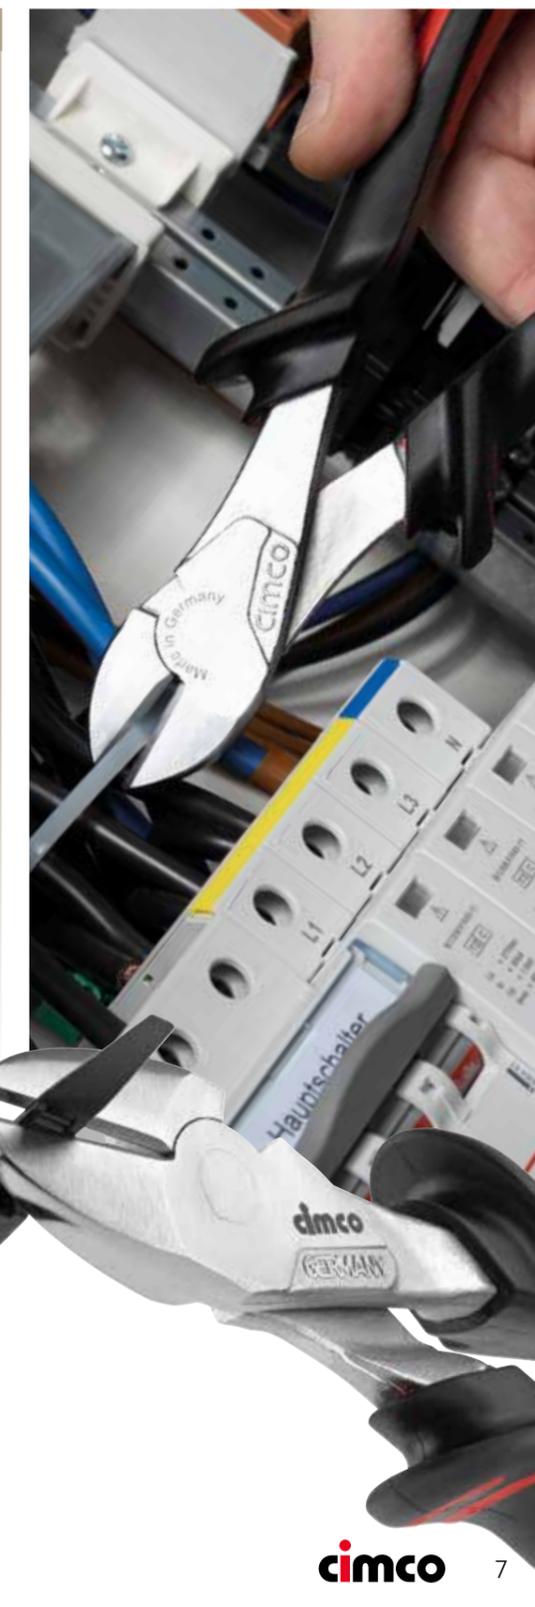

CIMCO item no.	Length mm
10 0526	160
10 0528	180

DIP-INSULATED HANDLES

CIMCO item no.	Length mm
10 8789	160
10 8784	180

1,000 V STRIPPING DIAGONAL PLIERS

One tool, two functions: diagonal pliers with a precise insulation stripping function for 1.5 and 2.5 mm² conductors.

- Clean cutting result at the cutting tips
- Precise insulation stripping for 1.5 and 2.5 mm² conductors
- Induction hardened precision blades for perfect cutting results
- DIN ISO 5749

INSULATED HANDLE SLEEVES

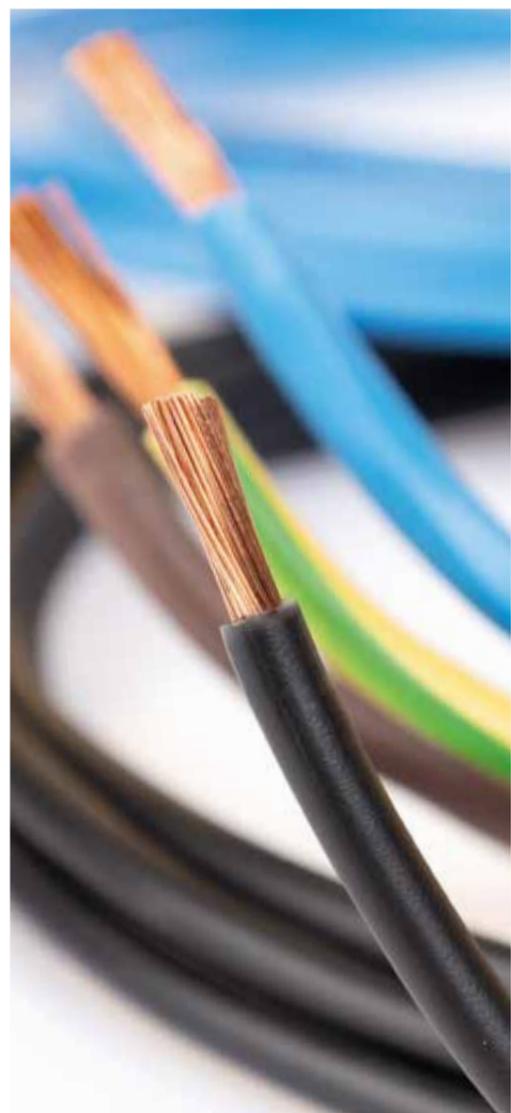

CIMCO item no. 10 0652 Length mm 160

DIP-INSULATED HANDLES

CIMCO item no. 10 8792 Length mm 160

1,000 V COMBINATION PLIERS

A reliable combination: gripping and cutting with just one tool

- High-precision work without having to change tools
- Secure gripping of round or flat stock
- Cutting of soft and hard wire
- DIN ISO 5746

INSULATED HANDLE SLEEVES

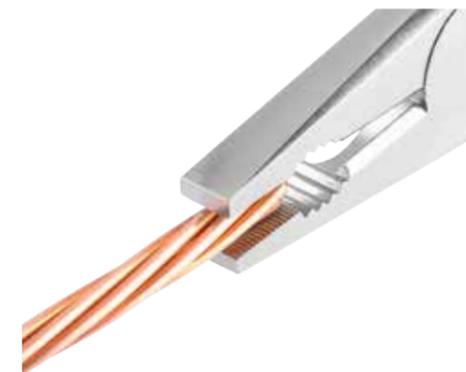

CIMCO item no. Length mm
10 0334 160
10 0336 180
10 0338 200

DIP-INSULATED HANDLES

CIMCO item no. Length mm
10 8781 160
10 8782 180
10 8783 200

1,000 V TELEPHONE PLIERS, STRAIGHT/BENT

Needle nose pliers with long, straight or bent jaws, with serrated recess (burner hole) and cutting function.

- Flat-round jaws that are either straight or bent at 45°
- Serrated recess (burner hole)
- Cutting surface for soft and hard wire
- DIN ISO 5745

STRAIGHT JAWS

INSULATED HANDLE SLEEVES

CIMCO item no.	Length mm
10 0214	160
10 0216	200

DIP-INSULATED HANDLES

CIMCO item no.	Length mm
10 8779	160
10 8778	200

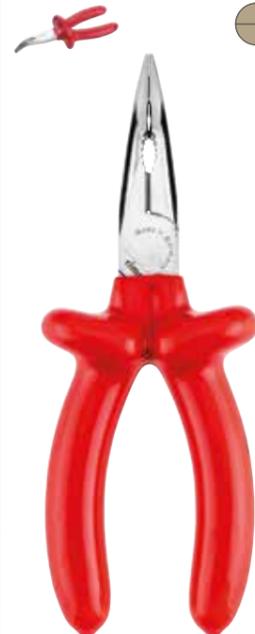

BENT JAWS

INSULATED HANDLE SLEEVES

CIMCO item no.	Length mm
10 0236	160
10 0238	200

DIP-INSULATED HANDLES

CIMCO item no.	Length mm
10 8777	160
10 8780	200

1,000 V LONG FLAT NOSE PLIERS, FLAT/ROUND NOSE PLIERS

Grip pliers with long, flat or round jaws.

- Flat jaws with serrated gripping surface (flat nose pliers) or round jaws with smooth gripping surface (round nose pliers)
- Jaw length 50 mm
- Extremely robust and durable
- DIN ISO 5745

FLAT NOSE PLIERS

INSULATED HANDLE SLEEVES

CIMCO item no.	Length mm
10 0024	160

DIP-INSULATED HANDLES

CIMCO item no.	Length mm
10 8771	160

ROUND NOSE PLIERS

INSULATED HANDLE SLEEVES

CIMCO item no.	Length mm
10 0062	160

DIP-INSULATED HANDLES

CIMCO item no.	Length mm
10 8773	160

1,000 V WIRE STRIPPERS

Pliers with adjusting screw for easily setting the desired wire or stranded wire diameter.

- For solid and multi-wire conductors
- Stripping values up to \varnothing 5 mm or cross sections of 0.75 to 6 mm²
- With internal opening spring

INSULATED HANDLE SLEEVES

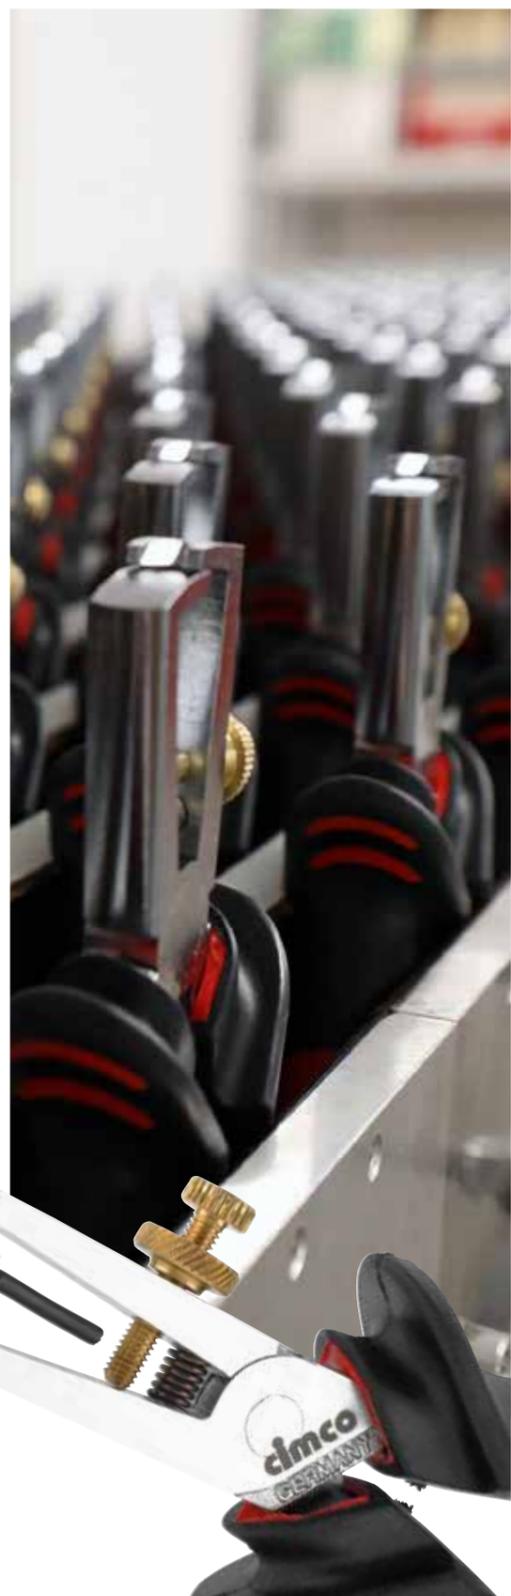

CIMCO item no. 10 0686 Length mm 160

DIP-INSULATED HANDLES

CIMCO item no. 10 8790 Length mm 160

1,000 V PLIERS SETS, 4-PIECE

The professional set of four pliers; VDE tested and approved for 1,000 V AC:

- Heavy duty diagonal pliers, 200 mm
- Telephone pliers, 200 mm
- Combination pliers, 180 mm
- Wire stripper, 160 mm

INSULATED HANDLE SLEEVES

CIMCO item no. 10 4020

DIP-INSULATED HANDLES

CIMCO item no. 10 8002

1,000 V PLIERS SETS, 3-PIECE

The professional set of three pliers; VDE tested and approved for 1,000 V AC:

- Diagonal pliers, 160 mm
- Telephone pliers, 200 mm
- Combination pliers, 180 mm

INSULATED HANDLE SLEEVES

CIMCO item no. 10 4021

DIP-INSULATED HANDLES

CIMCO item no. 10 8003

SCREW PLIERS

The special horizontally and vertically serrated gripper head of the pliers releases screws reliably

- It is possible to grip the screw heads from the front and sides
- For all self-tapping or metric screws M1 – M3 (CIMCO item no. 10 0350)
- For all self-tapping or metric screws M2 – M6 (CIMCO item no. 10 0352)

INSULATED HANDLE SLEEVES

CIMCO item no. 10 0350 Length mm 130

CIMCO item no. 10 0352 Length mm 160

WATER PUMP PLIERS

Water pump pliers with box joint and self-clamping for effortless working.

- With serrated recess (burner hole)
- Self-clamping on the workpiece
- DIN ISO 8976

INSULATED HANDLE SLEEVES

CIMCO item no. 10 1224 Length mm 250

DIP-INSULATED HANDLES

CIMCO item no. 10 8724 Length mm 250

DIN ISO
8976

DIAGONAL SEALING PLIERS

Combines two functions in one tool:

- Diagonal pliers
- Crimping of plastic seals \varnothing 8 mm
- With punches \varnothing 8 mm (separately: CIMCO item no. 10 1732)
- Seals, seal punches, seal wires, etc. available as accessories

INSULATED HANDLE SLEEVES

CIMCO item no. 10 0030 Length mm 160

PRECISION ELECTRONIC PLIERS

Precision electronic pliers have been specially designed for applications in the fields of precision engineering or electronics. Narrow grip pliers or cutting pliers with a flat or tapered nose give the user the best possible view of the working area when performing delicate installation work.

Gripping, cutting and insulation stripping: with the right tool, everything is effortless, comfortable and safe.
