Flexibility on the move

CimPack: Tool case and
backpack in one

SICHER SEIT 1827.

The **all-rounder** for daily use

A perfect symbiosis of tool case and backpack

How does simply hanging your tool case over your shoulders like a backpack and leaving your hands free sound? It sounds practical – and it is! With our new CimPack models.

The CimPack combines a classic, robust tool case with the mobility and ergonomic benefits of a backpack. Thanks to a clever interior there is plenty of space for all the tools you might need for your day-to-day work. And what's more: there's even space for your laptop and tablet including accessories. No more annoying searching for things.

Whether you're working on expanding renewable energies or optimising power supplies – we're here to support you with our well-thought-out equipment. Our CimPack models are especially durable and hard-wearing. And if one of the recyclable components should ever become damaged, getting a replacement is really straightforward – that's what we understand by sustainability.

CimPack

The 2-in-1 solution for electronics engineers

Robust

Stable, torsionally rigid aluminium frame – which can even be used as a seat

Ergonomic

Size and weight optimised to make it really comfortable to wear

Mobile

For springing into action quickly and flexibly for electrical, solar and service jobs

Secure

Carry system made of Cordura® fabric – tear-resistant, stain-resistant and water-repellent

Sustainable

Well-thought-out product concept with fully replaceable and recyclable components

Personalisable

Can be produced with a customer logo and customer-specific contents*

*Customised solutions may be subject to minimum order quantities, depending on the design. Please contact us to discuss your requirements.

Converts easily

from a tool case into a backpack

The integrated straps enable the tool case to be turned into a practical backpack in no time at all.

The straps can be fully stowed away.

Flexible dividers in the bottom compartment offer space to store more tools.

PERSONALISABLE

✓ Whether you want customised contents or your company logo on the front: we will create the CimPack that's perfect for your needs!

Enquire now!

Stowed away safe and tidy

The backpack straps are really easy to stow away in the cushioned pad on the CimPack. The stain-resistant and water-repellent Cordura® fabric is tear- and wear-resistant. Attached to the case lid, the carry system is protected from dirt and damage.

To hand in no time

The CimPack can be opened really easily with one hand. The professional tools it holds are always to hand and well organised. The foam inlay means tools are stored securely and a bottom compartment with flexible dividers offers even more storage space.

Everything has its place

Your laptop or tablet is always safely to hand in an extra compartment in the lid. And a removable storage bag, secured with a hook-and-loop fastener, for small parts or laptop accessories will save your trouser or jacket pockets.

Perfectly prepared for every working day
