Multi Pro

Battery-powered hydraulic pressing, cutting, and punching with just one device

SICHER SEIT 1827.

One system, many options

The Multi Pro offers fatigue-free working whatever the situation

The work done by electronics engineers is getting more complex and their equipment more extensive. Here at CIMCO we have one overriding goal: to make their working lives and tools as safe and comfortable as possible.

That is exactly why we have developed the battery-powered hydraulic Multi Pro. It is our new all-rounder for cutting and crimping tasks: thanks to two interchangeable heads, which can be changed quickly and easily, it is suitable for a huge variety of installation, maintenance and repair work. As a multifunctional tool it saves space and costs, while also being extremely robust. At the same time it is compact, handy and convenient to transport in its matching XL-BOXX.

The automatic motor stop without run-on feature ensures the tool is safe. And another safe bet: the cutting head cuts through even thick cables effortlessly and precisely in just one cut. You can rely on the compact and lightweight 2.0 Ah battery. And we have balanced out the total weight of the unit to enable fatigue-free working. Because it is important to us that every job can be done safely.

Multi Pro

Battery-powered hydraulic tool for crimping and cutting applications

Incl. 2 batteries

Technical data

- Crimping and cutting force: 62 kN
- Crimping range: 6 – 300 mm²
- Cutting range: ⌀ 50 mm (copper & aluminium, fine-stranded and stranded), not suitable for steel (ACSR)
- Operating temperature: -10°C to +60°C
- Dimensions (without head): L x W x H: 280 x 75 x 230 mm
- Weight without head, with 2.0 Ah battery: 3,050 g
- XL-Boxx with foam inlay and box for 12 crimping inserts

AS A SET

Item no.
10 6354

Base unit, crimping and cutting head, incl. charger and 2 x 18 V/2 Ah Li-ion batteries, harness, in XL-BOXX

Item no.
10 6345

Base unit **(without crimping and cutting head)**, incl. charger and 2 x 18 V/2 Ah Li-ion batteries, harness, in XL-BOXX

- Interchange heads quickly and without tools
- Motor stop without run-on for an immediate stop and maximum safety
- Fibre-reinforced plastic housing for a lower weight at high strength
- 360° rotatable heads for all working situations
- Ergonomic pistol shape for balanced weight distribution
- LED work light

Crimp simply and safely
↳ Multi Pro crimping head

Technical details	
Crimping force	62 kN
Stroke/width of opening	13 mm
Crimping range	6 – 300 mm²
Crimping time (dependent on cross-section)	2 – 5 s
Weight	1,800 g
Dimensions (L x W x H)	170 x 56 x 100 mm

Cutting that saves you effort

↳ Multi Pro cutting head

Item no.
10 6352

Technical details	
Cutting range	ø 50 mm
Cutting time	9 s
Material	Copper/aluminium, not suitable for steel (ACSR)
Weight	2,350 g
Dimensions (L x W x H)	275 x 66 x 125 mm

Application	Cutting ø	
CU cable	50 mm	
AL cable	50 mm	
Cu conductor fine/finest-stranded	50 mm Class 5 + 6	
Al conductor fine-stranded	50 mm Class 5	

Powerful attachment

↳ Hole punching head

Item no.
10 6358

Technical details	
Weight	1.000 g
Dimensions (L x W x H)	120 x 54 x 54 mm

Perforation

- up to ø ISO 82 mm
- up to 68 x 68 mm
- up to 46 x 92 mm

Keine Presseinsätze notwendig

↳ Multi Pro Dornpresskopf

Item no.
10 6360

Technical details	
Pressing force	62 kN
Stroke/ Opening width	38 mm
Press area	10 – 300 mm²
Pressing time (depending on cross-section)	3 – 8 s
Weight	1.720 g
Dimensions (L x W x H)	175 x 58 x 85 mm

- For crimping tube cable lugs, standard connectors, and crimp cable lugs with conductor classes 2, 5, and 6 according to IEC 60228
- Crimping head rotates 180°, with quick-release fastener

AVAILABLE FROM MARCH '26

The perfect match

XL-BOXX as a storage and carrying case

HIGHLIGHTS

Robust

The XL-BOXX is made from impact- and shock-resistant ABS plastic and is ideal for daily use even in extreme conditions. It is the perfect way to securely store and protect the Multi Pro.

Comfortable

Despite offering secure transport protection and a large capacity, the XL-BOXX is still lightweight. BOXXes are splashproof and easy to clean.

Stackable

Compatible with existing L-BOXX systems, can be stacked on one another securely to save space. So your tools will always be safe and you will be comfortable when working out and about.
